

Neal Davenport Bio

The Neal Davenport Band has performed for hundreds of events and receptions in the southeast for the past 25 years. Our extensive repertoire covers the musical spectrum from big band to high energy dance music. We can perform our entire song list as a trio (keys with vocals, sax, and drums) or customize to larger sizes – often adding a female vocalist and guitarist. In addition, band members are classically trained musicians who can perform on piano, harp, or both in more formal settings. Having been a part of so many events, our experience will help ensure yours is a great success!
