

Nathan Morgan Bio

Based out of Knoxville, Tennessee, Nathan has been surrounded by music his entire life. Whether it was the early vinyl likes of Lynyrd Skynyrd, The Allman Brothers, ZZ Top, and Bad Company to name a few, or playing in and leading bands as a teenager, Nathan developed an early passion and drive for creating guitar-driven goodness!

Nathan continues to create and inspire with his music. Whether playing solo or with his band, Nathan pulls from the hallowed history and sounds of places like Memphis, Chicago, Macon, and Nashville, creating a guitar-based sound that is dripping with emotion and honesty.

Over his roughly 20-year career, Nathan has played with and supported the likes of Buddy Guy, ZZ Top, Collective Soul, Lynyrd Skynyrd, Travis Tritt, and Styx, just to name a few. Nathan and his band are steady touring and playing all over the US. While traveling and getting to play the music of his heroes, Nathan also writes and has recorded and released his own music. His most recent project, *The Memphis Sessions EP*, recorded at the historic Sun Studio in Memphis, is now available on all streaming platforms and on vinyl as well.
